

Profile

I am a game programmer, software engineer and a graduate of an Advanced Diploma of Professional Game Development at the Academy of Interactive Entertainment (AIE) in Melbourne. Having great dedication and passion for game development, I am self-motivated and always actively learning more about game development and software engineering.

Skills

C#	Linq	Unity	Project Management	Code Design and Architecture	OOP
Visual Studio / Code	C++	Git / Sourcetree / GitKraken	SOLID Principles	Regex	

Projects

Walkie Talkie - rlst.github.io/walkietalkie

First Person Adventure Game - Wicked Fiction, Remote, Dec 2019 - Ongoing

- Designed, architect and implement all systems in the game from scratch
- Help market the game by being active on our discord server and posting progress videos
- Ensure technical documents are up to date
- Maintain and keep codebase clean and organised
- Help designer increase productivity by creating a node based dialogue editor

StormRend: Realm in Ruin - rlst.github.io/stormrend

Major Final Project - AIE, Melbourne, 2019

- Ensuring codebase is clean, flexible and well architected.
- Responsible for implementing the main core systems ie. stackable state machine, user input controller.
- Developed the AI system and behaviour editor.
- Assist designers by creating various tools such as map editor and ability & effects editor

BhaVE: Behaviour tree Visual Editor - rlst.github.io/bhave

Personal Project, 2019

- Designed, architected and programmed the entire project from the ground up including drawing some of the icons.
- Planning to release the project onto the Unity asset store.

Dirty Chef Yoga - rlst.github.io/dirtychefyoga

3 Day Game Jam - AIE, Melbourne, 2019

- Responsible for implementing the player controller, burger ingredient stacking system, cooking stations, interaction system between stations, hooking up animations, audio and particle FXs.
